

RESTRICTED**SECURITY INFORMATION***Office Memorandum* • UNITED STATES GOVERNMENT

TO : Chief, Research & Planning Staff

FROM : Chief, Personnel Division (O)

SUBJECT: Medical Disqualifications

DATE: 19 February 1953

1. It is recommended that memoranda announcing medical disqualifications to the Personnel Office be divided into the following three categories: (a) permanent disqualifications, (b) disqualified subject to re-evaluation after one year, (c) disqualified subject to re-evaluation after pregnancy.

2. The information presented in this manner would be helpful to the Personnel Relations Branch in determining the employee's re-employability.

3. Under current procedures most medical disqualification memoranda are worded, "Subject given a physical examination date and found DISQUALIFIED FOR AGENCY EMPLOYMENT." When receiving such a memo it is necessary for the Personnel Relations Branch to contact the Medical Office to determine whether the disqualification is final, or whether a future medical re-evaluation of the subject employee would be granted.
